Career Coaching Success Stories

Arun Pareek

Civil Engineer, Perth

"As a newcomer to Australia, none of the recruiters were contacting me for interviews. So I spoke to Naren and CSA who guided me through the job hunting process. Their career coaching work is by far the best I came across in Australia and it did help me to get my first full time job as an Engineer. This is where to go if you need help to get a job in your field."

Harshitha Kumar

Biotech Lab Analyst, Sydney

"My Career Coach was Langdon who guided me each day to give me the confidence to generate my first job offer through networking. He helped me each step of the way and I am so glad I joined the career coaching program which played a huge role in breaking through with my career."

Chaitanya Reddy

Data Analyst, Melbourne

"Even though I had done an internship, I still couldn't get a job! So I trusted CSA with everything to help me. Langdon and Naren were so positive with my case and ultimately they saw me through to getting my full time job offer. I cannot express how thankful I am to the CSA team for helping me get employment in Australia."

Geraldine Goh

Finance Analyst, Melbourne

"The Career Coaching program was brilliant. Within 8 weeks the team had helped me secure multiple interviews with top finance companies in Melbourne and Sydney. This program gives you the confidence and support you need to get hired."
